BROUGHT TO YOU BY **Measure Y | 2022**

Why do we talk about gay families?

Since it is normal and appropriate for young children to play at house, family and marriage, introducing a variety of family structures into their world at an early age creates broader inclusivity. Encouraging discussions about sexual identities may use the word "sex", but in reality we are talking about relationships, interpersonal interactions, crushes, and how kids want to imagine their future lives. Our goal is to create a world where everyone is able and encouraged to explore being exactly who they are.
