Step 4: on this side of the paper you can draw your room designs.

The box next to the  is the floor of the room and the top of the paper will make up the two walls of the room.

Step 5: Decorate your room walls and floors. We have given you enough pages to make four different rooms.

What rooms will you design for your home?

Step 6: Fold your page so that the walls are pointing up and the floor and  are flat.

Step 7: Cover the  with glue and press to the underside of your floor to the  Your room should now have 1 floor and 2 walls.

Step 7: repeat the process to create 4 rooms.

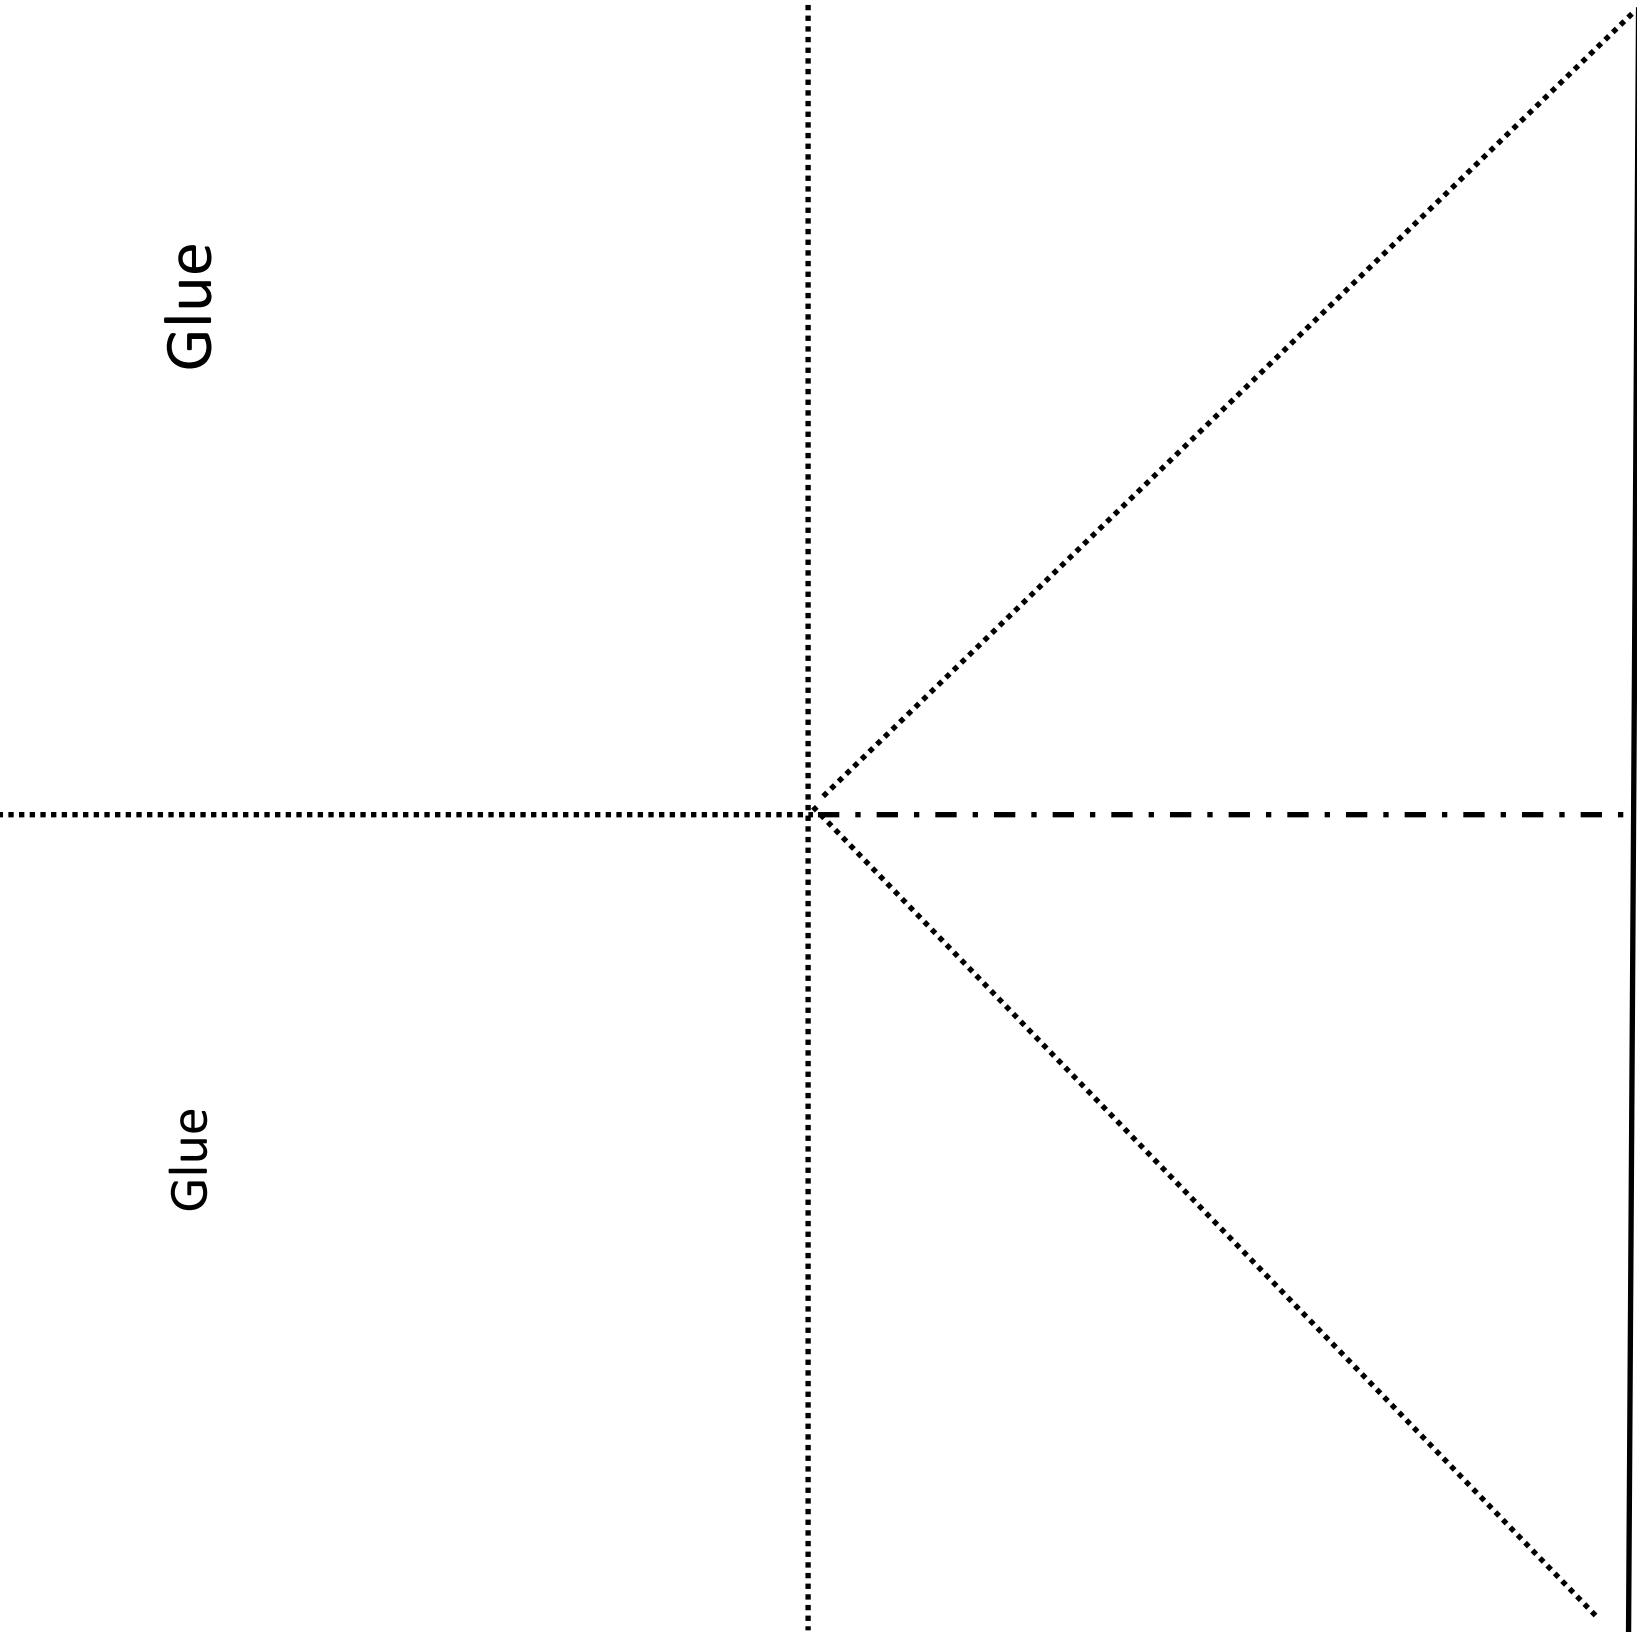

Step 6: Glue the outside walls together, pressing the sides that say "glue" to each other

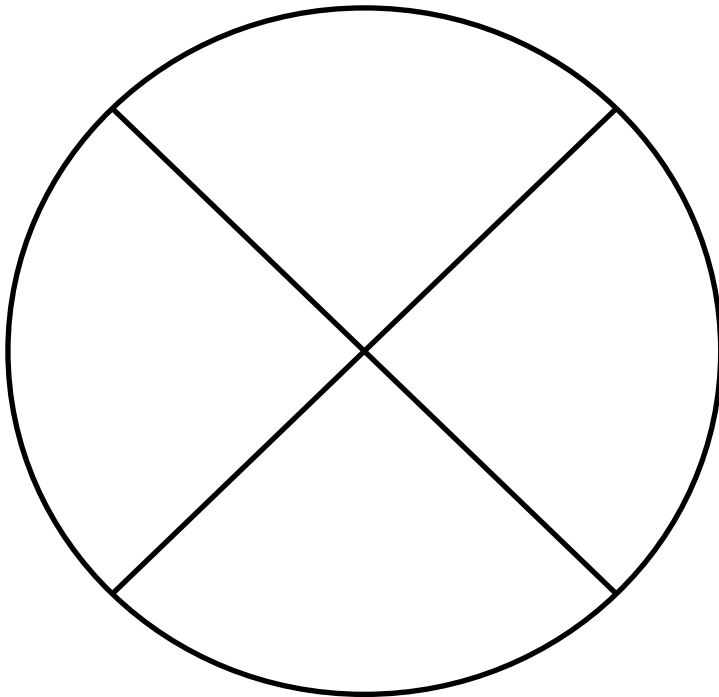

Step 7: Your little home should now be able to fold into a book!
